

192d,

The 1st and 192d Maintenance Groups continue to display their excellence. Below is the official notification from 9th Air Force that the 1st and 192d Maintenance Groups (TFI) will be the ACC 2013 Clements McMullen Memorial Daedalian Weapons System Maintenance Trophy nominee and representative in the Air Force level competition.

Effectively, this nomination recognizes our TFI Maintenance Group as the best in the CONUS CAF (Combat Air Forces) - CONUS based fighter, attack, reconnaissance, and bomber. They will compete with USAFE, PACAF, AFSOC (Air Force Special Ops Command), AFGSC (Air Force Global Strike Command - Nuclear Forces) and AMC (Air Mobility Command) units at the Air Force Level for overall winner.

Again - great accomplishment, and very proud of our maintainers. Langley is now the icon of TFI Excellence.

V/R
